Hello

Thanks for taking the time to read this cover letter and review my resume!

I'm very excited about this job opportunity as it seems I'm an outstanding fit for the role, and it's with a company who's mission I'd be proud to support. With my first ever trip to Mexico City coming up soon, I found myself downloading the Duolingo app in order to brush up on my Spanish, so this feels like a sign!

You'll see that I am currently at Audible, an Amazon company, where I've been able to dig deep into the email program-- from defining segmentation to pulling reports in SQL, to A/B testing and more. I've collaborated every day with various internal and external teams, and I'm very proud of the work I've done here.

From what I've read it seems that you need a subject matter expert that isn't afraid to wear multiple hats and take on a lot of responsibility-- and I'm confident to say "that's me!". Hope to hear from you soon,
